Dallas, TX 75202-2733**

May 19, 2013

Secretary Gary Sherrer
Office of the Secretary of Environment
3800 North Classen Boulevard
Oklahoma City, Oklahoma 73118

Dear Secretary Sherrer:

The U.S. Environmental Protection Agency (EPA) announced the proposal of eight new sites to the Superfund National Priorities List (NPL) under Proposed Rule #58. One of these sites, Wilcox Oil Company, Creek County, Oklahoma is located in Region 6.

The EPA also announced the addition of nine new sites to the Superfund National Priorities List (NPL) under Final Rule #56. None of these sites are located in Region 6.

I have attached copies of public information and reference materials related to these Rules. The Rules will be printed in the Federal Register (FR) on or about May 22, 2013. The NPL list will be available on the EPA's Superfund web site at (<http://www.epa.gov/superfund/sites/npl/>). The Superfund web site will be updated no sooner than May 20, 2013, with all of the supporting documentation for this rule. The FR notice can be found on the Government Printing Office web site (www.access.gpo.gov).

If you have any questions regarding this matter, please contact me at (214) 665-6701, or have your staff call Brenda Nixon Cook, Region 6 NPL Coordinator, at (214) 665-7436.

Sincerely yours,

Carl Edlund
Director
Superfund Division
